THE

ELECTRICAL WORLD

A REVIEW OF CURRENT PROGRESS IN ELECTRICITY
AND ITS PRACTICAL APPLICATIONS

VOLUME LVIII

JULY 1 TO DECEMBER 30, 1911

NEW YORK

ELECTRICAL WORLD

n a.

INDEX TO VOLUME LVIII

GENERAL INDEX

Entries from the Digest of Current Electrical Literature are indicated by D (Digest) and D R (Digest Reference)

A

Accident claims. (See Employees)
Accounting:
——Depreciation. By H. G. D. Nutting, 323, 636; W. A. Del Mar, 454, 757; F. F. Fowle, 455; Henry Floy, 506; G. L. Hoxie, 898; B. Holand, 957
——Depreciation, Treatment of, in New York, 150, 1420, 1533
——New Jersey system of accounts, 1532
——Telephone companies in New York, 1473
Advertising by central stations:
——Boston Edison Co., "Obsolescence of the horse," *1495
——Chicago:
"Corcorans' House Party," 276
Flatirons, 43
Moving picture drama, *277
Tungsten lamps, 396
——Cleveland, A gas-engine warning, 448
——Electric car as advertisement, Kansas City, Mo., *1010
——Fans, 226
——House of Boston Edison Co., *174
——Key tags for real estate agents, 395
——Milwaukee, *498
——Moving window displays, 276
——New Orleans, La., *1306
——Newspaper publicity in Tennessee, 1306
——Post card novelties, *1142
——Prompt payment of bills, 43
——St. Louis, Re-connect post cards for vacant houses, 276
——San Francisco, Cal., 1068
——Sandusky, Ohio, 447
——Stickers to create showroom interest, 395
Advertising, Electrical:
——Baltimore, "Bromo-Seltzer" tower, *1382
——St. Louis, *277
Agricultural communities, Electricity in:
——Energy from coal for irrigation farming in Colorado. By C. H. Williams, *805; Comment, 779
——Eureka, Ill., 1376
——Experiments with the electrification of growing crops, Evanston, Ill., *1549
——Germany, Elbe River Valley, (D.) 823
——Lighting service tapped from 13,000-volt transmission line, Liberty, Ind., 1140, 1306
——Milking machine, Vacuum. By J. C. Hoetger, *278
——Motor-of-all-work on a Missouri farm, *895
——Petersburg, Ill., 1377
——Sale of electricity to farmers, 1095, 1105, 1139
Agricultural fairs, Electrical exhibit at. By J. T. Gordon, 1147
Air:
——Electric state of the upper. By Makower, Gregory and Robinson, (D.) 641
——Electric strength of. By J. B. Whitehead, 111; F. W. Peek, Jr., 111; Comment, 474
Alkali chloride electrolysis, Cost of. By V. Engelhardt, (D.) 1076
Alternating-current devices made in St. Louis, *1318
Alternating-current measurements, Null methods in, 1277
Alternating magnetic field, Physiological effect of. By S. P. Thompson, (D.) 1502
Aluminum. By G. Flusin, (D. R.) 1445
Aluminum as conductor material. By E. Huber-Stockar, 1180
Aluminum coils for railway motors, (D.) 406
American Association for the Conservation of Vision, 306
American Electric Railway Association:
——Convention, 846, 933
——Officials, 983
American Electrochemical Society, Toronto meeting, 791, 935
American Exposition of Brewing Machinery, Materials and Products, 1022
American Institute of Chemical Engineers, Trade secrets and convention visits, 2
American Institute of Electrical Engineers:
——Amendments to constitution and by-laws, 1466
——Bust of von Helmholtz presented to the Institute, *1224, 1278
American Institute of E. E.: (Continued)
——Convention at Chicago, 4, 77, 86; Papers and discussions, 106, 169, 221
——Fraternal relations with other societies, 1466
——Meetings, 476, 982, 986, 1098, 1224, 1466
——Membership, New Grade of, 1467
——Pittsburgh Section, 665, 1051, 1282
——Schenectady Section, 1281
——Smoker, 1469
——Standardization rules, 1409, (D.) 1445
——Water-power development. Discussion before National Waterways Commission, 1336; Comment, 1333
American Mining Congress, 1098
American Physical Society, Chicago meeting, 1469
American Society of Heating and Ventilating Engineers, Semi-annual meeting, 149
American Society of Mechanical Engineers, Annual meeting, 1412, 1471
Ammeters:
——Compared with voltmeters. By Fitch and Huber, (D.) 1446
——Hot-wire, for wireless telegraphy. By Hartmann-Kempf, (D. R.) 1389
——Testing. By G. C. Cassard, *324
Amp-hour meter, Use of. By R. C. Lanphier, 1103
Appraisals, Making. By H. M. Byllesby, 169; F. F. Fowle, 1344
Arc lamp hanger, Automatic cut-out, Thompson, *762
Arc lamps:
——British lamp, frequencies from 25 to 40, (D.) *55
——Characteristics. By M. Tappley, (D.) 456
——Electrodes, Impregnated, History and properties of. By J. Escard, (D.) 639
——Electrode, British patent, (D.) 1557
——Electrodes of titanium-chromium carbide, (D.) 177
——Flaming-arc:
Improvements, 923
Increasing use of, *579
Long-life, General Electric K type, *590
——Korting & Mathiesen patent, (D.) 283
——Luminous, for railroad terminals, *904
——Operation of series alternating-current street lamps By J. C. Lawler, *554
——Oxides for. By J. Escord, (D.) 1257
——Radiant efficiency. By H. P. Gage, (D.) 456, 899
Arc lighting. (See Lighting, Electric; Sign and decorative lighting; Street lighting)
Armatures, Magnetic losses in. By G. Vallauri, (D.) 1313
Ash and dump carts, Electric, Boston, 1377
Associated Gas and Electric Companies, 725
Association of Edison Illuminating Companies, 532, 662, 794; Convention, 860
Association of Iron and Steel Electrical Engineers, Convention, 724, 792, 925
Association of Railway Electrical Engineers, 532, 1172, 1228
Association of Railway Telegraph Superintendents, Convention, 81, 1341
Associations, Small state electrical. By C. L. Morgan, 1016
Austria, Electric industry of. By E. Honigmann, (D.) 510
Automobile business:
——Boston, 693, 932
——Chicago:
Central-station vehicles, 1607
Operating electric vehicles on a basis of specific-gravity records, *1012
——Colorado Springs, Col., 947
——Denver, Colo., *498
——Discussion by Electric Vehicle Association, 848, 927, 1072, 1523
——Louisville, Ky., 892
——Small cities, The electric vehicle in, 931
——Springfield, Ill., How load was created, 277
Automobiles, Electric:
——Bailey roadster, *1023
——Cincinnati's 60-hp emergency line automobile, *1437
——Denver, Colo., *498
——"Electra" runabout, *766
——Express delivery, Indianapolis, Ind., 1011
——Generators for lighting, (D.) *757
——Handbook of New York Edison Co., 395
——Hupp delivery wagon, 1506
——Kansas City commercial vehicle garage, 815
Automobiles, Electric: (Continued)
——Lamp-delivery wagon, Rochester, *1139
——Lighting system, Ward Leonard, *1562
——New York Edison Co., 694
——Progress of the electric vehicle, Discussion at Electric Vehicle Association Convention, 927
——Springfield (Mass.) fire department, *202, *1492
——Trucks in Boston, *172
——Trucks in Louisville, Ky., 1306
——Versus the gasoline vehicle. By Hayden Eames, 488
Automobiles, Gasoline:
——Self-cranking Cadillac, 760
——Versus the electric vehicle. By Hayden Eames, 488
Automobiles, Gasoline-electric, Omnibus in London, (D.) 234

B

Balancers:
——Principle of the static. By C. C. Hawkins, (D.) 176
——Three-wire. By G. T. Hanchett, *628; A. R. Dennington, *958
Ball-bearing mountings for electric motors with vertical armature shafts, *127
Bananas ripened by electricity, Louisville, Ky., *114
Battery, Dry, Two-volt, Efficiency Electric Co., 964
Bell-ringer, Packard, *766
Belt drives, Safety device for. By F. C. Moins, (D.) *1151
Belt line, Improving. By W. H. Wakeman, *334
Belts, Generator and motor. By James Scott, 1133
Billing and record system of New York Edison Co., *573
Binghamton, N. Y., industrial exhibition, 1494
Blackboards, Color in. By A. J. Marshall, (D.) 177
Boat propeller, Electric, *180
Boilers at Delray station of Detroit Edison Co., *1481; Convent, 1463
Bolts, Setting foundation. By F. M. Nichols, *335
Book reviews:
——Address to Engineering Students, 1390
——Anlasser und Regler für Elektrische Motoren und Generatoren. By R. Krause, 826
——Beanspruchung und Durchhang von Freileitungen. By Robert Weil, 512
——Beispiele und Ubungen aus Electricitat und Magnetismus. By Robert Weber, 180
——Brown's Directory of American Gas Companies, 1503
——Copper Handbook. By H. J. Stevens, 1446
——Cyclopedia of Telephony and Telegraphy, 1559
——Design of Static Transformers. By H. M. Hobart, 903
——Dynamoban. By Karl Pichelmayer, 179
——Edisonapkumulator. By Meno Kammerhoff, 1315
——Electric Central Station. By H. B. Gear and P. F. Williams, 903
——Electric Crane Construction. By C. W. Hill, 1559
——Electric Traction and Transmission Engineering. By S. Sheldon and E. Hausmann, 963
——Electrical Nature of Matter and Radioactivity. By H. C. Jones, 58
——Elektrische Beleuchtung. By Berthold Monasch, 287
——Elektromotoren, Umformer und Elektrische Motorautriebe. By Dr. Niethammer, 179
——Elementi di Metallurgia. By A. Greco, 125
——Encyclopédie Electrotechnique. By F. Loppé, 512
——Energy, Work, Heat and Transformations. By S. A. Reeve, 589
——Engineering Chemistry. By T. B. Stillman, 124
——Enroulements Industrie. By E. Marec, 825

*Indicates illustrated articles.

234238

Book reviews: (Continued)
——Essais des Machines a Vourants Alternatifs. By G. Ferroux, 408
——Factory Organization and Administration. By Hugo Diemer, 355
——Grundegesetze der Wechselstromtheorie. By Fritz Hoppe, 460
——Hendricks' Commercial Register, 963
——Homestead. By M. F. Byington, 124
——Law and Commercial Usage of Patents, Designs and Trademarks. By K. R. Swan, 589
——Leçons sur l'Electricité. By Eric Gerard, 287
——Lignes Electriques, 287
——Magnetismo e Elettrecita. By F. Grassi, 1614
——Maximum Production in Machine Shop and Foundry. By C. E. Knoppel, 1503
——Messungen au Maschinen und Motoren für Gleichstrom. By Fritz Hoppe, 512
——Messungen der Stromstärke, Spannung, Leistung und Arbeit bei Gleich und Wechselstrom. By Fritz Hoppe, 512
——Mesures Electriques Industrielles. By J. A. Montpellier and M. Aliament, 459
——Oekonomische Erzeugung und Verwertung Elektrischer Energie. By Adolf Prasch, 1022
——Physical Significance of Entropy. By J. F. Klein, 903
——Principles of Wireless Telegraphy. By G. W. Pierce, 179
——Propagation of Electric Currents in Telephone and Telegraph Conductors. By J. A. Fleming, 962
——Qualitative Chemical Analysis, from the Standpoint of Solubility, Ionization and Mass Action. By J. I. D. Hinds, 512
——Seven Follies of Science. By John Fin, 179
——Statistik der Electricitätswerke in Osterruch, 1560
——Steel Workers. By J. A. Fitch, 124
——Storage Batteries. By A. E. Watson, 235
——Study of Electrothermal and Electrolytic Industries. By E. A. Ashcroft, 459
——Theoretische und Experimentelle Untersuchungen an der Synchronen Einphasen-Maschine. By Max Wengner, 511
——Theory of Electromagnetism. By G. T. Walker, 1447
——Theory of Electrons. By H. A. Lorentz, 760
——Uber den Kraftlinienverlauf im Luftraum und in den Zahnen von Dynamoankern. By K. Hoerner, 825
——Unipolare Gleichstrom-Maschine. By B. von Ugrimoff, 459
——Walker's Loose-Leaf Pocketbook for Engineers. By N. R. Corke, 1390
——Wireless Telephones. By J. Erskine-Murray, 180
Boosters, Automatic reversible battery. By R. Rankin, (D.) 1557, 1613
Boosting poles. By R. Pohl, (D.) *699
Boston:
——Automobile Show, 614
——Electrification plans, 1340
Boston Edison Co.:
——Entertains municipal authorities, 1176
——Newton-Watertown district office, *399
Boston Electric Vehicle Club, 82, 200, 849, 925, 1227, 1279, 1414
Bottle electric tower, Baltimore, *1382
Brackets, Lamp, Patterson adjustable, *59
Brakes, Eddy-current. By F. Niethammer, (D.) 1502
Braking induction motors, Rosenberg and Peck patent, (D.) 585
Breaks in series arc circuits, Locating. 42
Bridges, Motor-operated lifts:
——Kansas City, *1120
——Omaha, Neb., 891
Brick plants. (See Industrial plants)
British Association for the Advancement of Sciences, Meeting, 727, 799, 1048
Brooklyn Edison Co., Examination of solicitors, 1551
Brownian movements. By H. Fletcher, (D.) 901
Brush connections, British patents, (D.) 1386
Brushes, Carbon, Grinding, Watkins patent, (D.) 638
Buffalo General Electric Co.'s building, *278
Building material handled by electricity, Denver. By R. B. Mateer, *571
Bureau of Mines Electrical Section, 200
Butter made to order by electricity, 629
Byllesby convention, 1581
By-product electric-light plants. By G. H. Morse, 326

C

Cablegrams, Letter, Western Union Service, 1412
Cables:
——Calculation of electric strength. By W. Deutsch, (D.) 1502; Comment, 1521
——Experiments on high-tension cables, by Siemens-Schuckert Co., 1048
——Graphical method for calculating the voltage drop in overhead lines. By Nils Forssblad, (D.) 1502
——High-tension, and protection system, Cologne, Germany. By Birrenbach and Höchstädter, (D.) *701
Cables (Continued)
——Installing twin-conductor cables, 339
——Joints in lead-covered. By W. E. Rogers, (D.) *406
——Joints, making, on underground high-tension lines, Minerallac method, *183
——Large high-tension submarine, Habirshaw, 1315
——Limits in the use of cables for energy transmission. By Elvio Soleri, 1047
——Localization of faults, German instrument, (D.) 642
——Reinforcement of direct-current three-wire feeders. By A. W. Welch, 1361; Comment, 1335
——Repairing faulty, by means of transformer. By P. N. Trout, 336
——Safety coefficient. By J. Grosselin, (D.) 1558
——Sags and tensions in overhead conductors. Graphical method of determining mechanical constants of transmission lines. By Alfred Still, *1188; Comment, 1169; B. Smith, 1442
——Testing apparatus, the "phasophone," (D.) *459
——Testing underground cables, Boston, 694
——(See also Wires and wiring)
Cableway, suspended passenger, to the Aiguille du Midi. By A. Gradenwitz, (D.) 354
Calculator, alternating-current transmission line, Adams, *182
California public utility constitutional amendments, and legislation, 997, 1474, 1592
Canadian Electrical Association Convention, 6
Canadian Hydroelectric Commission news, 207, 263, 867, 1055
Canadian Industrial Exhibition, 447
Capacity coefficients for parallel suspended wires. Calculation of. By F. F. Fowle, 386, 443, 493; Comment, 374
Capitalizing new business expense, 529
Cars, Gasoline electric, *219, *409
Cathodes, Incandescent line. By Willows and Picton, (D.) 57
Cell, Moisture-proof dry, Western Electric, 356
Census report on electrical machinery and apparatus, 607, 611, 1042
Central-station business:
——Accounting. (See Accounting)
——Advertising. (See Advertising)
——Automobiles. (See Automobile business)
——Auxiliary service nuisance, Cincinnati's solution of, 1379
——Baker's electric ovens, Milwaukee, 448
——Baltimore showroom, 1494
——Bonus for rapid work, Chicago, 1133
——Boston, New business record, 1248
——Brooklyn Edison Co., 1436
——By-product plants. By G. H. Morse, 326
——Campbellsville, Ky., Reconstructing in 26 days, 1606
——Cheyenne, Wyo., *1250
——Chicago:
New building promotion work, 278
Statistics, 953, 1376
Suburban service of North Shore Electric Co., 1102
——Cleveland, Correcting customers' bills for power factor, 1552
——Cleveland publicity, 954
——Clippings from technical journals, Use of, in new business work. By H. W. Brunell, 1606
——Complaints, Following up, 1436
——Complaints of high electric-light bills Dealing with, Nashville, Tenn., 1495
——Contract order routine, 1550
——Denver development, 695. By J. C. Hammond, 753
——Detroit, Mich., 952
——Domestic uses of electricity. By A. H. Seabrook, (D.) 234; G. Dettmar, (D.) 457, 510, 586
——Factory loads for central stations. By L. L. Perry, (D.) 406
——Fan service, Free for invalids, 171, 568
——Fargo, N. D., Development, 1141
——Flatirons, Meter reader as salesman, 731
——Growth of the electricity-using habit, 342
——Handling customers' orders. By R. S. Hale, 449
——Heating applications. By Egbert Douglas, 500
——Heating-appliance campaign methods in Ohio cities, 396
——Heating load, Altoona, Pa., 891
——Ice-making. (See Refrigeration)
——Isolated plants. (See Isolated plants)
——Letters that aid motor solicitor, 1139
——Maryville, Mo., Small town with large motor load, *817
——Melbourne, Statistics, (D.) 1075
——Mercantile business of a central-station company. By J. F. Gilchrist, 227
——Milwaukee, Limited-peak and off-peak service, *1496
——Milwaukee, Suggestion and question box, 1437
——Montrose, Col., Expansion, *894
——Motor applications. By Egbert Douglas, 500
——Motor-business, Soliciting, 1104
——New business methods, 864
——Off-peak power contracts, Enforcement of, 449
——Pittsburgh, Proposed sign ordinance, 1249
——Post cards, Reconnect, St. Louis, 276
Central-station business: (Continued)
——Promoting business in a small town. By G. D. Slaymaker, 344
——Pumping for city water supply, 1520
——Residence business, Report of committee on, 3
——Sabetha, Kan., 952
——St. Louis:
Electric-sign campaign, 1249
Replacing isolated plants with central-station service, 276, 1438
——Salt Lake City, 1010
——Selling points, 1250
——Strassburg, Germany. By A. Loewe, (D.) 1075
——Summer load, Office building as. By C. L. Dutton, 1499
——Technical terms to be kept in background in selling, 1195
——Tree-trimming season, 1196
——Visiting-nurse service, 1138
——Warm-weather suggestions, 255
——Wired houses, Bulletin board helps to rent, Marion, Ind., 1376
——Wiring houses:
Brattleboro, Vt., Old residences, 752
Brooklyn, Wiring proposal to contractors, 226
Chicago two-years-to-pay campaign, 952
Cleveland company 10 per cent bonus for contracts, 340
Des Moines, Ia., *818
Joplin, Mo., Cut-rate campaign, 816
Milwaukee, 228
Old residences, Kansas City, *896
Omaha, Neb., 752
Shreveport, La., Results, 497
Wichita, Kan., Campaign, 1067
Worcester, Mass., 751
Central-station practice:
——Casper, Wyo., Lentz engine, *1394
——Charging of ignition batteries for automobiles. By W. E. Rogers, (D. R.) 823
——Cheyenne, Wyo., *1250
——Combination heating and generating plant, Springfield, Ill., *541
——Combined ice and electric plants, Design of. By J. R. Cravath, 25
——Combination ice-electric plant operation, Junction City, Kan., 893
——Combined lumber-electric-lighting-ice plant, Livermore, Ky., 1009
——Combined steam and hydrolectric generation Colorado Springs Light, Heat & Power Co., *941
——Costs of production in progressive stations, 556
——Design of combination ice and electric plants. By J. R. Cravath, 25
——Drop, Permissible, between generating and substations, 42
——Efficiency of small station, Determination, 394
——Engines, Poor economy of underload, 347
——Fire-room efficiencies, Rockford, Ill., *1369
——Floor space occupied by engines and turbines compared. By W. H. Wakeman, *1133
——Fluctuation of load. By C. Schmidt, (D.) 1075
——Gas consumption in Lawrenceville, Ill., plant, 1494
——Gas engines. (See Gas engines)
——High-potential disturbances, Committee report, 860
——Home-made devices used in enlarging station. By J. F. Hobart, *1135
——Ice-making. (See Refrigeration)
——Isolated plants. (See Isolated plants)
——Lignite plant at Blooming Grove, Tex., 37
——Load dispatcher's record board, 569
——Locomobiles, Practical running of. By W. H. Miller, *1117
——Metering water used by condensing steam plant, Practical value of, *884
——Oil engines. (See Oil engines)
——Operation of stations. By J. Reyval, (D.) 759
——Parallel operation of stations, *1046
——Peak-load troubles, Method of overcoming, 903
——Rebuilding a station. by J. F. Hobart, 338
——Relaying stations, 339
——St. Louis, Turbine operation with reduced condenser surfaces, 340
——Steam auxiliary of Southern Power Co. By J. W. Fraser, *17; Comment, 1
Central-station sales managers, Convention of, 149
Central-station storehouse, Des Moines, Ia., *1307
Central stations:
——Austin, Tex., Proposed municipal plant, 614
——Austria, Statistics, (D.) 823, 1150
——Blankenese-Ohlsdorf single-phase railway. By Freund, (D.) 1258; W. Wechmann, (D.) 1502
——Calgary Power Co., Alberta, Can., 1519, *1539
——Central Colorado Power Co., *871
——Central Georgia Power Co., Water-power generation and distribution, *679
——Chicago, Transmission line data, 164
——China. By L. R. Freeman, *691
——Cincinnati, Plum Street station, Steam turbine equipment, *1113; By B. A. Behrend, 1255
——Cleveland, Proposed municipal plant, 848, 1052, 1176, 1526

*Indicates illustrated articles.

Central stations: (Continued)
——Clinton, Mass., *623
——Colorado Springs Light, Heat & Power Co., Combined steam and hydroelectric generation, *941
——Crawfordsville, Ind., Hillside steam-turbine station, *1295
——Dakota Power Co., Rapid City, S. D., Proposed station, *319
——Detroit Edison Co., Delray station, Largest boilers made, 332, *1481; Comment, 1463; Generators and switching arrangements, *1542, *1607
——Development of the modern station. By C. P. Steinmetz, 5
——Dubuque, Ia., Doubling of its capacity, 1066
——Easthampton Gas Co., *619; Correction, 678
——England:
Brighton Corporation, Southwick station, (D.) 233
Middlebrough municipal station, Statistics, (D.) 1203
West Ham, Statistics, (D.) 900
——Ephratah, N. Y., Mohawk Hydro-Electric Co., *869
——Erie, Pa., Steam-turbine station near Presque Isle Bay, *157
——European three-phase gas-engine plants. By W. H. Miller, *1363
——France:
Number of hydroelectric stations, (D.) 1018
Statistics, (D.) 1502
——Germany, Statistics, 1900 to 1909. By G. Dettmar, (D.) 177; to April, 1911, 1527
——Glasgow, Statistics, (D.) 759
——Gosau plant, in the Tyrol, (D.) 509
——Grace, Idaho, Telluride Power Co., *1298
——Great Lakes Naval Training Stations, *21
——Greenville. (See below, Southern Power Co.)
——Hamburg, Germany. By W. Wechmann, (D.) 1445
——Hamilton, Ont., Municipal plant, 263
——Hoosac Tunnel electrification, *741
——Independence, Kan., Natural-gas-driven station, *1001
——Indianapolis Light & Heat Co., Mill Street station, *1185
——Italy, Development in. By J. Reyval, (D. R.) 823
——Keokuk, Ia., Progress of construction work, *988, 1043
——Kootenay River hydroelectric plants. By L. A. Campbell, (D.) 405
——Lebanon, Ind., Oil-engines, *1356
——Lexington (Ky.) Utilities Co., New turbine station, *1365
——London, Statistics, (D.) 641
——Los Angeles Aqueduct project, 615, 785
——Los Angeles, Pacific Light & Power Co., Reconstruction of Borel plant, *1616
——Louisville, Ky., Water-supply situation, *1367
——Manchester, Statistics, (D.) 1557
——Marseilles, (D.) 586
——Metropolitan Water and Sewage Board of Massachusetts, *623
——Miniature plant, Springfield, Vt. By M. A. Hicks, *1358
——Minidako irrigation project, Idaho, *1595
——Minneapolis, *725
——Missouri Valley, Ia. By W. A. Trussell, *624
——Napanee, Ontario, Sale of municipal plant, 569
——Newcastle-Upon-Tyne Electric Supply Co., Dunston station, *97; Comment, 79
——Nipissing Power Co., Ontario stations in South River near North Bay, *383
——Northern Colorado Power Co., Irrigation farming. By C. H. Williams, *805; Comment, 779
——Norway, Statistics. By Norberg-Schulz, (D.) 178
——Portland (Ore.) Railway, Light & Power Co., 1526
——Reading, Pa., Metropolitan Electric Co., Substation, *315
——Rome. By J. Reyval, (D.) 1152
——Russia, Statistics, (D.) 458
——St. Louis, Laclede Gas Co., Turbine station, 332
——St. Timothy, Quebec, 614
